

# PRECISION Asset Management

infinite possibility

## What is it?

A managed service for PC inventory and IT asset analysis.

This service provides a full audit of all your hardware and software for a monthly fee, giving you the benefit of continued management of your IT assets.

Whatever the size of your organization, Precision will inventory servers, desktops, laptops, tablets and pocket PCs, printers and all installed software – in hours rather than days or weeks.

## How it works

The service provides a thorough, speedy audit with instant reporting on:

- Software licensing compliance
- VLA management
- PC replacement forecasting
- Security/Policy variations
- Software usage analysis.

So we can identify and recommend a course of action to maximize return on investment.

## Benefits

- Access to current hardware and software inventory data – an accurate up to date audit of all your IT infrastructure
- Enables effective IT budget allocations
- Standardised software
- Reduced support costs
- Maximises return on IT investment.

## Contact Us

Take your first step up to Enterprise Technology and call Precision today. A member of our team will be pleased to discuss your needs and show you how Precision can set you on the road to increased business efficiency and security.
